

Calls to Action for Government

People First of Canada &

Inclusion Canada

November 2024

What policy changes does the government need to make to support inclusive housing for people with an intellectual disability?

Recognize the
right to live in
community

Provide access to
affordable housing
& support chosen
by the person

Stop putting people
in institutions

Close remaining
institutions and
provide federal
funding to help

Help people move
out of institutions
and into the
community

Make sure housing programs fund only inclusive options

Make sure people
can afford to pay
the rent

Make sure people
have the disability
supports they need

Require all levels
of government to
have action plans

Invest funds into
making more
inclusive housing

Expand how housing developments are measured for being inclusive

The 5 areas of inclusive housing are:

- participation,
- support arrangements,
- dwelling,
- structure,
- neighbourhood

How can the people here today help support the government to make these policy changes?
